SKILLS

Strong	**Experienced**
JavaScript & TypeScript	C# & .Net Core
React & Redux	Vue
Python & Django	Node JS
Apollo GraphQL	React Native

WORK HISTORY

FULL STACK WEB DEVELOPER   *04/2021 to CURRENT*

Potentia Analytics | Carbondale, IL

- Created user-friendly front-end interfaces using **JavaScript/TypeScript** frameworks like **React** and **Vue** for a dynamic and responsive user experience.
- Developed and maintained backend systems using **Python** and **Django**, implementing **RESTful APIs** and optimizing database queries for efficient data retrieval, storage, and manipulation.
- Developed for mobile development leveraging **React Native** and **MongoDB**.
- Reviewed code, debugged problems, and corrected issues.

FULL STACK WEB DEVELOPER   *08/2018 to 04/2021*

Indica Labs | Albuquerque, NM

- Build complex yet clean UI/UX using **JavaScript/TypeScript** client side technologies **React**, **Redux**, **Apollo GraphQL**
- Build **RESTful API** web services for backend on **Node js** and **C# .NET Core**
- Participated in daily **Agile** stand-ups and provided constructive feedback in peer code reviews for ongoing improvement.
- Worked with product managers and development team to appropriately evolve designs from concept to launch using **Jenkins** for keeping track of builds.

FULL STACK WEB DEVELOPER - CONTRACTOR   *04/2018 to 08/2018*

Mobovida | Irvine, CA

- Customized and optimized **Shopify** themes for a visually appealing and user-friendly online shopping experience.
- Developed **Python** scripts to automate and optimize inventory management processes and efficient handling of product catalog data.
- Collaborated with cross-functional teams to understand requirements and implemented effective **e-commerce** solutions using **JavaScript** for custom UI/UX

FULL STACK WEB DEVELOPER   *03/2017 to 04/2018*

CASHét | Los Angeles, CA

- Converted mock ups and wire frames into code on company site using **JavaScript/JQuery**
- Maintained development of **PHP** backend for database (**PostgreSQL**) and storage (**AWS(S3)**) driven programs
- Coded email templates using **HTML**
- Showcased completed features to non-technical teams, ensuring alignment with production deadlines and requirements.

EDUCATION

Electrical Engineering   *2014*

University of New Mexico, Albuquerque, NM
